

Medical dialysis membrane

Membrana DIAPES LF100 capillary membrane

Capillary membrane	Sheet No.	079/0082/000	of 03/16
Type LF100	supersedes	079/0082/000	of 11/13

Product name: Thermo Scientific™ Membrana™ DIAPES™ LF100 Capillary Membrane

Chemical composition					Test ref.No:
Polymer		Polyethersulfone			
Physical properties					
Wall thickness	m	35	µm	701/017	
	±	5	µm		
Inner diameter	m	200	µm	701/017	
	±	15	µm		
Membrane performance characteristics					
Hydraulic permeability (ultrafiltration rate for Albumin solution) (QF = 10 ml/min x m²)		approx. 13 ml/[h x m² x mmHg] ^{a)}		701/068	
Available make up configurations					
Bundles (customer specified), with P.E.T.®					

Intended Use: Membrana DIAPES LF100 capillary membranes are specialized products for OEM dialyzer and hemoconcentrator manufacturing. Thermo Scientific Membrana DIAPES Capillary Membrane covers the full range for all extracorporeal renal replacement therapies, i.e., in hemodialysis, hemodiafiltration and hemofiltration. Since there are many factors that can affect a product's use, the customer and user remain responsible for determining whether the Thermo Scientific product is suitable and appropriate for the user's specific application, including user conducting an appropriate risk assessment and evaluating the Thermo Scientific product in user's application for safety, regulatory compliance, performance and any other requirements.

Restrictions on Use: Thermo Fisher advises against the use of Membrana DIAPES Capillary Membrane products in any application other than the stated intended use(s), since other applications have not been evaluated by Thermo Fisher and may result in an unsafe or unintended condition.

Technical Information: The technical information, guidance, and other statements contained in this document or otherwise provided by Thermo Fisher are based upon records, tests, or experience that Thermo Fisher believes to be reliable, but the accuracy, completeness, and representative nature of such information is not guaranteed. Such information is intended for people with sufficient knowledge and technical skills to assess and apply their own informed judgment to the information. No license under any Thermo Fisher or third-party intellectual property rights is granted or implied with this information.

Product Selection and Use: Many factors beyond Thermo Fisher's control and uniquely within user's knowledge and control can affect the use and performance of a Thermo Scientific product in a particular application. Given the variety of factors that can affect the use and performance of a Thermo Scientific product, user is solely responsible for evaluating the Thermo Scientific product, conducting appropriate risk assessments, and determining whether it is fit for a particular purpose and suitable for user's method of application.
