

Medical apheresis membrane

Membrana MicroPES capillary membrane

Primary bundles

Product name: Thermo Scientific™ Membrana™ MicroPES™ Capillary Membrane**Bundle dimensions**

Length	nominal value $\pm$ 2 mm
Diameter	nominal value $\pm$ 2 mm
Number of capillaries	nominal value $\pm$ 50

Intended Use: Membrana MicroPES capillary membranes are intended for use in application for plasma separation such as iv filtration and bioreactor. Since there are many factors that can affect a product's use, the customer and user remain responsible for determining whether the Thermo Scientific product is suitable and appropriate for the user's specific application, including user conducting an appropriate risk assessment and evaluating the Thermo Scientific product in user's application for safety, regulatory compliance, performance and any other requirements.

Restrictions on Use: Thermo Fisher advises against the use of Membrana MicroPES capillary membranes products in any application other than the stated intended use(s), since other applications have not been evaluated by Solvatum and may result in an unsafe or unintended condition.

Technical Information: The technical information, guidance, and other statements contained in this document or otherwise provided by Thermo Fisher are based upon records, tests, or experience that Thermo Fisher believes to be reliable, but the accuracy, completeness, and representative nature of such information is not guaranteed. Such information is intended for people with sufficient knowledge and technical skills to assess and apply their own informed judgment to the information. No license under any Thermo Fisher or third-party intellectual property rights is granted or implied with this information.

Product Selection and Use: Many factors beyond Thermo Fisher's control and uniquely within user's knowledge and control can affect the use and performance of a Thermo Scientific product in a particular application. Given the variety of factors that can affect the use and performance of a Thermo Scientific product, user is solely responsible for evaluating the Thermo Scientific product, conducting appropriate risk assessments, and determining whether it is fit for a particular purpose and suitable for user's method of application.
