

The next generation of clarification solutions has arrived

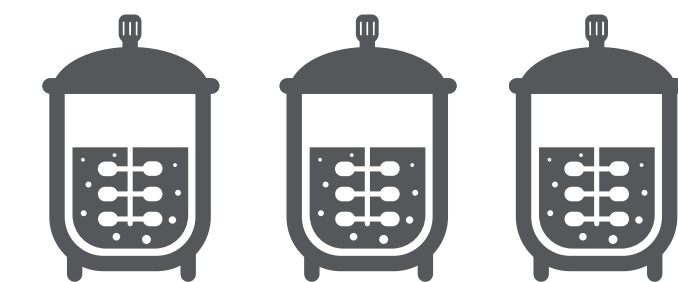

Harvest RC clarifier platform

Now you can rely on one consistent, scalable clarification platform for all development phases and process volumes.

The Thermo Scientific™ Harvest RC Chromatographic Clarifier platform is a next-generation clarification platform that includes Thermo Scientific™ Harvest RC Chromatographic Clarifier for direct clarification and Thermo Scientific™ Harvest RC Centrate Chromatographic Clarifier, for centrate clarification. This modern clarification platform of single-use devices offers linear scalability from lab to manufacturing scales, improves process efficiency by reducing soluble impurities and can be seamlessly integrated into facility infrastructures.

 **Discovery & preclinical**

 **Clinical**

 **Commercial**

Thermo Scientific™ Harvest RC Chromatographic Clarifier
Direct clarification

Thermo Scientific™ Harvest RC Centrate Chromatographic Clarifier
Centrate clarification
