

Bundle and save on fugitive emissions instruments

Save when you buy a toxic vapor analyzer and an OGI camera together

Receive 10% off the analyzer and 5% off the camera*

Accurate gas and vapor detection is critical for regulatory compliance, worker safety, and environmental protection. It helps improve the overall performance and efficiency of operations as well. Keep your monitoring capabilities up to date with a new vapor analyzer and gas imaging camera.*

TVA2020 analyzer

The Thermo Scientific™ TVA2020 Toxic Vapor Analyzer

- Lightweight, portable form
- Intrinsic safety certification
- Capable of detecting virtually all organic and inorganic gases
- Designed for use in diverse applications including U.S. EPA Method 21 monitoring, site remediation, hazmat incidents, general area surveys, and more.

The Opgal™ EyeCGas™ Multi Optical Gas Imaging (OGI) Camera

- Exceptional sensitivity for gas leak detection
- Intrinsic safety certification
- Advanced connectivity
- LDAR-ready capabilities
- Versatile thermographic imaging
- Built-in gas quantification

**Opgal EyeCGas
Multi OGI camera**

* Purchase a new TVA2020 Toxic Vapor Analyzer and a new Opgal EyeCGas Multi OGI Camera together by the end of 2026 and save 10% on the analyzer and 5% on the OGI camera. Offer valid on binding purchase orders received by December 31, 2026. Certain restrictions apply. See your Thermo Fisher Scientific representative for details.
