

May 21, 2026

Dear Valued Customer,

We are providing this update to ensure clarity around upcoming product lifecycle changes. To support long-term reliability and operational efficiency, we have evaluated our portfolio and determined that certain legacy flow computers are no longer viable for continued support. This is largely due to aging system architecture and dependencies on third-party components with limited availability, which restrict our ability to meet ongoing customer requirements.

As a result, we will discontinue the AutoMITTER PRO, AutoEXEC, and AutoPILOT PRO flow computer models (see Appendix “A”) within the AutoSERIES product line. All Depot services for AutoSERIES instruments (see Appendix “B”) will also be discontinued effective immediately.

These products have supported critical operations reliably for many years, and we appreciate their role in your business. Given their lifecycle position relative to our next-generation AutoFLEX and AutoXP model flow computers, we are focusing our resources on technologies that better support evolving measurement and control requirements.

Discontinuation Schedule

AutoEXEC, AutoMITTER PRO, and AutoPILOT PRO

- Obsolescence Date: May 21, 2026
- Last Time Buy (LTB): June 22, 2026*
- Consumables, Spare Parts, and Service Support: through June 22, 2033**

Instrument orders will be accepted through the LTB date; after this point, new instrument orders will no longer be available.

We are committed to supporting your transition with planning, implementation, and ongoing service. Please contact your Thermo Fisher Scientific representative for assistance or click [here](#) to request a quote.

Sincerely,

Ethan Borchelt

Product Manager, Flow Computers

ethan.borchelt@thermofisher.com

*Certain models of AutoPILOT PRO and AutoMITTER PRO may be available after this window.

**It is possible that certain consumables and spare parts could become unavailable prior to the end of the defined period due to supplier availability and/or regulatory restrictions.

Appendix “A”: List of Discontinued Products and suggested replacements

Model Number	Product Description	Product Type	Suggested Replacement
AutoEXEC	Expandable I/O Gas and Liquid Flow Computer	Flow Computer	Expandable I/O Flow Computer: AutoFLEX
AutoMITTER PRO	SMV transmitter for volumetric rate calculation	Smart Multi-Variable (SMV) Transmitter	SMV Transmitter: AutoXP-SMV, SMV Transmitter + Flow Computer: AutoXP (A/B)
AutoPILOT PRO	Expandable I/O Gas and Liquid Flow Computer	Flow Computer	Expandable I/O Flow Computer: AutoFLEX

Appendix “B”: List of Discontinued AutoSERIES Depot services

Part Number	Description	Product Type
AUTOFLEX-SVC	AutoFLEX Whole Unit Repair	Depot Service
AutoPILOTPRO-SVC	AutoPILOT PRO Configurable - Repair	Depot Service
AutoExec-SVC	AutoEXEC Configurable (Whole Unit) - Repair	Depot Service
AutoMITTERPRO-SVC	AutoMITTER PRO Configurable (Whole Unit) - Repair	Depot Service
AutoXP-SVC	AutoXP Configurable (Whole Unit) - Repair	Depot Service
