

Quality controls

Accelerate QC decisions

Reduce review burden, focus attention faster, and take action with confidence with Thermo Scientific™ LabLink™ 360 quality assurance software. Turn daily QC monitoring into a proactive process with less searching, less clicking and simplified reviews.

Simplify QC review

Access QC results, performance trends, and peer comparison through streamlined data visualizations.

Focus attention faster

Automatically identify priority issues and easily drill down to investigate underlying details.

Act with confidence

Resolve current and downstream issues with contextual details on assay and instrument performance.

See QC performance clearly and focus attention where it matters most

LabLink 360 brings together actionable QC insights in one centralized view so you can identify priority issues faster, and make confident, data-driven decisions.

Simplify QC review

Access the information needed to review QC through a simplified workflow so you can focus on what requires action.

Focus attention faster

Customizable alerts and charts help labs isolate priority issues and click to supporting details for a quick, focused QC review.

Act with confidence

Take actions to fully understand and resolve issues with powerful filters to view details and cross-site comparison performance data.

Gain network visibility

With the new Affiliation Dashboard, view performance results across laboratories, instruments, and sites to identify trends, support standardization, and improve QC workflows.

- Compare QC performance all over the world
- Detect recurring issues across affiliated labs
