Pure metals for research and production

Bulk and catalog; get a quote from us

From medical devices to electronics and many other research applications, we can supply pure metals in various purities and forms to meet your specifications. Thermo Fisher Scientific offers a broad range of high-purity metals and materials, many of which are available from stock for immediate shipment.

For applications which require higher purity materials, explore our Thermo Scientific™ Premion™ line of pure elements. The minimum purity of our Premion™ line of products is 99.99% (metals basis). Premion™ pure elements include palladium, rhodium, iridium, ruthenium, osmium, silver, and gold.

Count on Thermo Fisher Scientific for high-purity quality products, outstanding delivery and service, and competitive pricing for large and small quantities!

Explore our range of pure metals, including:

- Gold
- Silver
- Platinum
- Palladium
- Rhodium
- Iridium
- High purity Premion™ pure elements

In addition to our catalog range, we deliver bulk quantities.
